

## Objective of the Japanese Class

Schools are a place where students can build and expand their knowledge while enjoying the course of studies. Schools are also a place where they can learn the necessary social skills through group activities. A happy and fulfilling school life helps students grow both in body and mind.

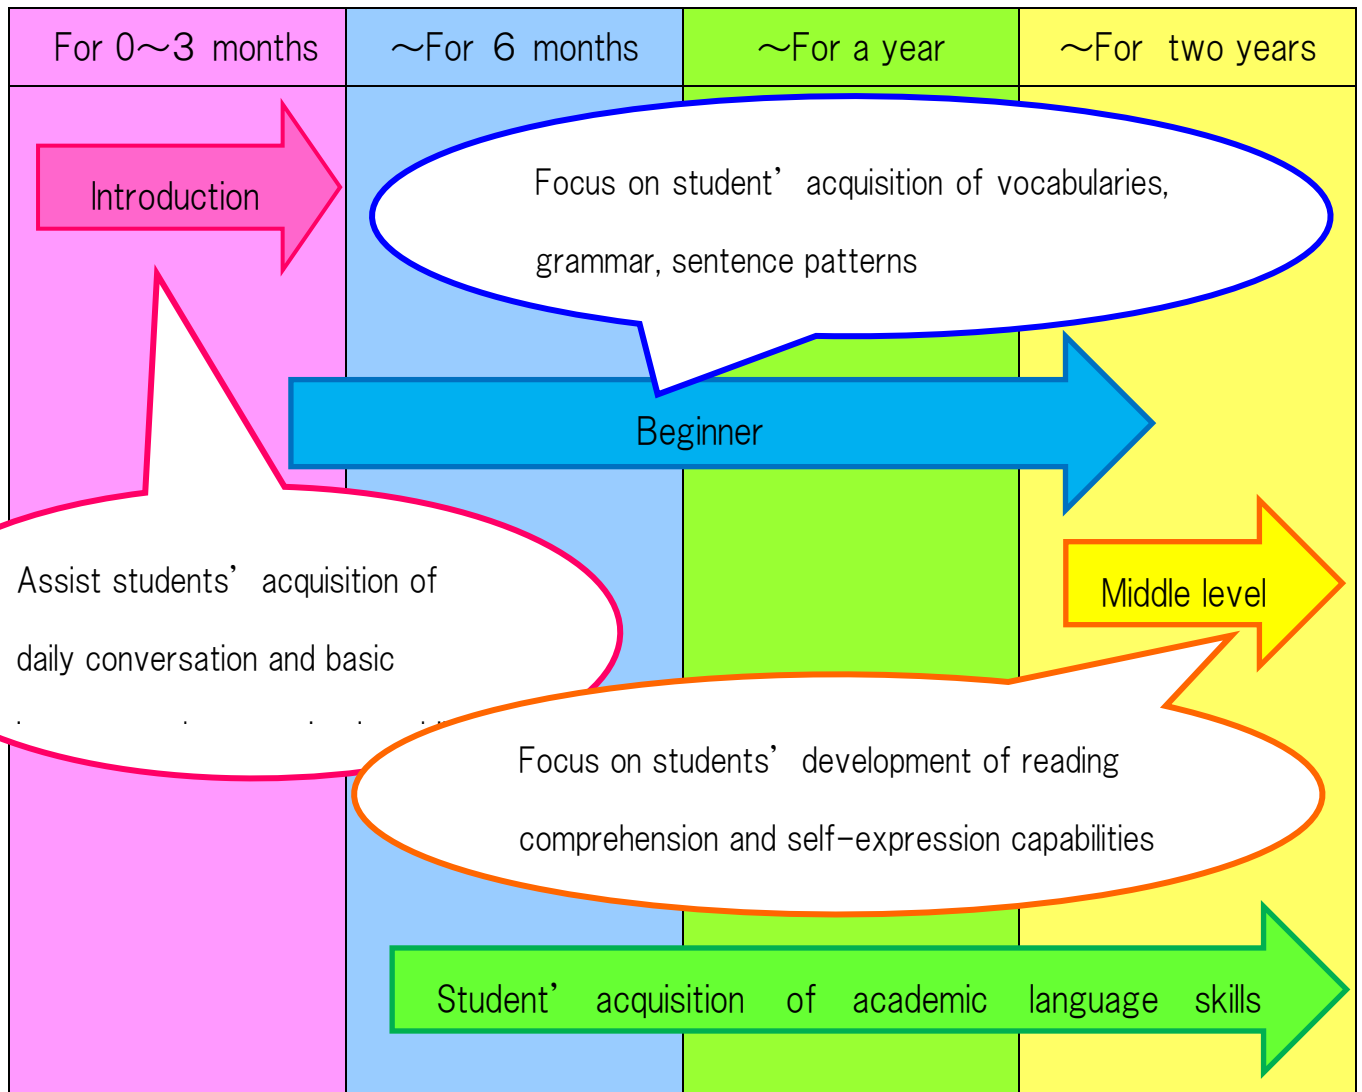

However, since Japanese is the language required in school, if a student is not a native Japanese speaker and unable to fully understand Japanese, he/she will face difficulties in communicating and understanding the subjects at school.

The Japanese Class aims to provide support to such students by encouraging them to quickly learn Japanese language and to facilitate their adapting to regular classes so that they will be able to enjoy a satisfying and rewarding school life in the shortest possible time.

## Educational Goals

- Students become familiar with Japanese customs and school life in Japan and develop basic lifestyle skills.
- Students become independent and they are able to contribute to Japanese society.
- Students acquire the Japanese language skills of speaking, listening, reading and writing.
- Students understand the subjects at school through basic Japanese language.
- Students value and take pride in the traditions and cultures of both Japan and their home countries.

## Course Design for Japanese Learning

## Application to enroll in the Japanese Class

- ① Ask homeroom teachers → Homeroom teachers meet parent /guardian →
- ② Homeroom teachers contact with Japanese Class teachers
  - Determine the date for the meeting
  - Parent/guardian and child meeting(Homeroom teachers and the Japanese teachers will discuss and determine how lessons should be paced to meet the level of each student.
- ③ Confirm the days of the week and hours for the student to attend the Japanese Class. ( Confirm the timetable )
